Cyber Security R&D Broad Agency Announcement (BAA)

- Delivers both near-term and medium-term solutions
 - To **develop new and enhanced technologies** for the detection of, prevention of, and response to cyber attacks on the nation's critical information infrastructure, based on customer requirements
 - To perform research and development (R&D) aimed at **improving the security of existing deployed technologies** and to ensure the security of new emerging cybersecurity systems;
 - To **facilitate the transfer of these technologies** into operational environments.
- Proposals Received According to 3 Levels of Technology Maturity

Type I (New Technologies)

- ✓ Applied Research Phase
- ✓ Development Phase
- ✓ Demo in Op Environ.
- ✓ 36 months

Type II (Prototype Technologies)

- More Mature Prototypes
- Development Phase
- Demo in Op Environ.
- 24 months

Type III (Mature Technologies)

- ✓ Mature Technology
- ✓ Demo Only in Op Environ.
- ✓ 12 months

Note: Technology Demonstrations = Test, Evaluation, and Pilot deployment in DHS "customer" environments

Total	1356	252	18.58%	379	92	38.98%	17
Notes:							
1. N/A includes some ongoing projects included in contract total, and therefore not competitive.							
2. Proposal Percent Total includes only those completed through "Entered Negotiations," i.e., any "TBD" is excluded.							

- White papers are done to help all involved
 - ◆ An early “opinion” of your idea without spending lots of \$
 - ◆ Reduces the number of full proposals
- We will be **VERY** selective during white paper phase
